github.com/oussbad

Software Engineer with experience building Python/FastAPI APIs and cloud-native microservices, plus hands-on work integrating LLM APIs into product workflows. Strong foundation in object-oriented programming, PostgreSQL, JavaScript, Docker, automated testing, and collaborative software delivery. Eager to research and ship practical AI-powered features for an open-source product used worldwide.

Professional Experience

July 2025 - Present	Software Engineer, Oracle MADC, Casablanca, Morocco > Build backend features and service integrations using object-oriented Java/Spring Boot patterns, REST/GraphQL APIs, and BFF services. > Implement API contracts, relational data models, scheduled jobs, and microservice integrations with distributed engineering teams. > Deliver maintainable software through GitLab CI, code reviews, JUnit/Mockito testing, debugging, regression fixes, and technical documentation. Java Spring Boot REST APIs GraphQL Microservices PostgreSQL GitLab CI JUnit Mockito Git
February 2025 - June 2025	Backend Intern (FastAPI), Oracle MADC, Casablanca, Morocco > Developed Python/FastAPI REST APIs for CSS, a microservices-based cloud monitoring platform. > Worked with relational data handling, API validation, unit testing, debugging, and documented engineering handovers. > Collaborated in an Agile team, using Git and GitLab CI to support reliable delivery. Python FastAPI REST APIs PostgreSQL Microservices Unit Testing GitLab CI Git

Education

2020 - 2025

State Engineering Degree in Software Engineering : Euro-Mediterranean University of Fez (UEMF), Fez

Technical Skills

Applied AI & APIs : LLM Integration, Agentic AI Workflows, AI Workflow APIs, REST APIs	Programming : Python, Java, JavaScript, Bash
Backend & Data : FastAPI, Spring Boot, Microservices, PostgreSQL, Oracle, MySQL, MongoDB	Development Practices : Object-Oriented Programming, Git, GitHub, GitLab, Agile/Scrum
Testing & Quality : Unit Testing, JUnit, Mockito, Postman, SonarQube, Trivy	Cloud-Native Tooling : Docker, Kubernetes, GitLab CI, Jenkins, Prometheus, Grafana

Selected AI Project

AI Workflow API : Python/FastAPI backend prototype integrating LLM APIs into task workflows, with REST endpoints, PostgreSQL persistence, Docker-based local setup, and unit tests for service logic.

Languages & Certifications

Languages :	Arabic (Bilingual); French and English (Professional); Spanish (Basic)
Certifications :	IBM Professional Certificate : DevOps and Software Engineering; Software Engineering Specialization; IBM Professional Certificate : Full Stack Developer
