AI-oriented Software Engineer focused on Python backend services, LLM API integration, agentic workflows, and cloud-ready architectures. Hands-on with FastAPI, Docker, AWS, Terraform, CI/CD, monitoring, and scalable REST APIs.

Professional Experience

July 2025 - Present	Software Engineer, Oracle MADC, Casablanca, Morocco - Contributed to AI-enabled backend services using Python/FastAPI, LLM API integration, and agentic workflow patterns. - Built and maintained REST/GraphQL integrations and BFF services in a microservices environment. - Improved reliability by refining API contracts, writing tests, fixing bugs, and supporting monitored services. - Worked with Docker, GitLab CI, cloud practices, and monitoring dashboards in daily delivery. - Collaborated with distributed Agile teams across development, testing, deployment, and operational follow-up. Python FastAPI LLM APIs Agentic AI REST APIs GraphQL Microservices Docker GitLab CI AWS Monitoring Agile
February 2025 - June 2025	Backend Intern (FastAPI), Oracle MADC, Casablanca, Morocco - Contributed to the CSS platform, a cloud monitoring system based on microservices and observability dashboards. - Implemented REST API endpoints and backend features using FastAPI and Python. - Wrote unit tests, fixed bugs, and improved service stability, reliability, and maintainability. - Used Git, GitLab CI, Docker, and monitoring practices while working on cloud platform services. Python FastAPI REST APIs Microservices Docker GitLab CI Monitoring Unit Testing Agile

Selected AI Project

AI Workflow API : Python/FastAPI backend prototype integrating LLM APIs into task workflows, with REST endpoints, PostgreSQL persistence, Docker-based local setup, and unit tests for service logic.

Education

2020 - 2025

State Engineering Degree in Software Engineering

Euro-Mediterranean University of Fez (UEMF), Fez

Skills

Backend Technologies : Python, FastAPI, REST APIs, Node.js, Cronjobs Programming Languages : Python, JavaScript, Go, Java, Shell Scripting (Bash) Software Architecture & Design Patterns : Microservices, BFF Pattern, RESTful APIs, Scalable Services, MVC Methodologies : Agile (Scrum) Cloud Providers : AWS, GCP, Oracle Cloud AI & LLM : LLM API Integration, Agentic AI Systems, LangGraph, AI Workflows	Frontend Technologies : JavaScript, React.js, GraphQL DevOps & CI/CD Tools : GitLab CI, Jenkins, Docker, Terraform, Kubernetes, Prometheus, Grafana Databases : Oracle, PostgreSQL, MySQL, SQL Server, MongoDB Version Control : Git, GitHub, GitLab Unit Testing & Testing Tools : Unit Tests, Pytest, JUnit, Mockito, Postman, BurpSuite Interests : Kibana, Elasticsearch, Go Modules, Postman
