Software Engineer experienced in frontend and backend development, collaborating with distributed teams across multiple countries. Currently building an IntelliJ IDEA plugin with Java/Kotlin and the IntelliJ Platform SDK, with a strong interest in AI Agents and Machine Learning.

Professional Experience

February 2025 - Present

Software Engineer, Oracle MADC, Casablanca, Morocco

> Started as a Backend Intern on the CSS cloud monitoring platform, then continued as a Software Engineer.

> Implemented REST API endpoints and Backend for Frontend (BFF) patterns with microservices architecture.

> Developed responsive frontend applications using JavaScript, React.js, and GraphQL.

> Started contributing to an AI project involving LLM integration and agentic AI workflows.

> Collaborated with distributed teams to define API contracts, write tests, fix bugs, and support QA.

> Used Git and GitLab for version control and continuous integration workflows.
