Junior Cloud Engineer with Python/FastAPI experience building APIs and contributing to a cloud-monitoring microservices platform. GCP experience gained through personal deployment projects, alongside containerized services, CI/CD, observability, relational data, and automated testing. Focused on reliable cloud operations, deployment automation, and secure, well-monitored services.

Professional Experience

July 2025 - Present	Software Engineer, Oracle MADDC, Casablanca, Morocco ➤ Build and integrate Python backend services for cloud-platform workflows using FastAPI, REST APIs, and microservice patterns. ➤ Implement API contracts, relational data workflows, and scheduled jobs that support scalable, reliable service operations. ➤ Support dependable cloud-native delivery through GitLab CI, automated testing, code reviews, issue triage, regression fixes, and technical documentation. Python FastAPI REST APIs Microservices GitLab CI Cloud Delivery
February 2025 - June 2025	Cloud Platform Backend Intern (FastAPI), Oracle MADDC, Casablanca, Morocco ➤ Contributed to CSS, a microservices-based cloud-monitoring platform focused on service visibility and reliability. ➤ Developed Python/FastAPI REST APIs and PostgreSQL-oriented data workflows, applying validation and maintainable service patterns. ➤ Supported stable cloud-platform delivery through unit tests, debugging, GitLab CI, Git collaboration, and documented handovers. Python FastAPI PostgreSQL Cloud Monitoring GitLab CI

Selected GCP Project

GCP Hands-On Deployment Project (Personal) : Used Google Cloud to deploy a containerized Python/FastAPI workflow API with REST endpoints, PostgreSQL persistence, Docker-based packaging, and unit tests. Practised cloud deployment, application configuration, and monitoring fundamentals outside of production work.

Education

2020 - 2025 **State Engineering Degree in Software Engineering** : Euro-Mediterranean University of Fez (UEMF), Fez

Cloud & Technical Skills

Cloud Platform : GCP (personal projects), AWS, Oracle Cloud, IAM concepts, Cloud Monitoring Automation & Delivery : Python, Bash, GitLab CI, Jenkins, Docker, Kubernetes, Git Infrastructure & Architecture : Containers, Microservices, API Contracts, Scheduled Jobs, BFF Pattern Testing & Security : Unit Testing, JUnit, Mockito, Postman, Secure Coding, Regression Testing Additional : JavaScript, React.js, LLM Integration	Cloud-Native Development : Python, FastAPI, REST APIs, Microservices Observability & Reliability : Prometheus, Grafana, Cloud Monitoring, SonarQube, Trivy, Debugging Databases : PostgreSQL, Oracle, MySQL, SQL Server, MongoDB Collaboration : GitHub, GitLab, Agile/Scrum, Technical Documentation
